Dino Egg To Be Presented

The first field trip of the 1989 season will be on June 17 to the Cleveland Lloyd Dinosaur Quarry. The Quarry will be presenting the CEU Prehistoric Museum and the Emery County Museum with a replica of the Dinosaur Egg found by BYU excavators last summer. Presentation of the egg will be at 12:00 Noon.

BYU will begin their summer field school at the Quarry on June 5 and continue for three weeks. There will be students working in the Quarry the day of the field trip, and short lectures and tours will be given during our visit.

Please meet at the Quarry between 11:30 a.m. and 12:00 Noon. Bring a lunch to be eaten at the Quarry following the presentation and tours. Following lunch we will meet at the Emery County Museum at 2:30 p.m. for a tour of their facilities and hear of their plans for the future.

Requested donations for field trips this year will be $5 per person, age 12+. There will be no charge for children under 12 accompanied by an adult. Donation group rates are available upon request.

Due to the nature of this field trip, the $5 per person donation will be split between the Quarry, the Emery County Museum and the CEU Prehistoric Museum.

Registration Form - Cleveland Lloyd Dinosaur Quarry

I, the undersigned wish to participate with the CEU Prehistoric Museum in the June 17th Auto Field Trip. I understand that the museum cannot be held liable for any loss, accident, or injury that may occur during this trip. I also understand that I will be responsible for my own vehicle and the people riding in it. There is no limit to the number of people I may bring in that vehicle providing it is within the means of the law and is no hazard to the driver.

Museum Objective

From the beginning our Museum has had but one aim; one objective: To preserve and display prehistoric artifacts pertaining to the geology and archaeology of Utah—more specifically, those of Eastern Utah—in an effort to add to the educational and cultural values of our state and community.

I will support the objectives of the museum and do my part to preserve the past by not collecting artifacts.

Signed ________________________________
This year the Utah Museum Association will hold their annual conference on September 21st and 22nd in Moab, Utah. The theme is "Working Together To Improve The Museum Community."

This event is sure to be a change from the standard conferences as there will be family provisions, such as child care and spouse activities, as well as a family event for everyone to enjoy.

Pam Miller, CEU Museum Archaeologist, and Mary Dame, Museum Artist, have been working to have a very controversial subject brought to the forefront. During one afternoon of the conference, there will be an Antiquities Panel consisting of archaeologists, anthropologists, legislators and attorneys. It will basically be an open forum for those attending the conference. The public will also be able to attend this meeting as it is hopefully going to make some headway into the problems that museums encounter with private artifact collections. The main focus is "How do museums ethically and legally accept contraband artifacts, and how can immunity be granted to those wanting to give their collections to museums so that they can tell museums where they got their artifacts if indeed they were taken from public lands." This is sure to be an exciting and worthwhile panel to attend. It is hoped that the issue will not end with this conference, but be pursued until positive legislative action can be taken.

Other topics currently being planned for the conference includes museum development, public relations, education, computer workshops, identifying community audiences, modernizing school materials, grant writing and marketing. This conference is going to be the best one yet.

For more Information on the UMA Conference, call Mary on Fridays at 637-5060 or on Mondays thru Thursdays at 637-5762.

The Junior Chapter of the Castle Valley Archaeology Society has been meeting once a week at Westridge Middle School since October 1988.

The after school club was organized by Kara Allred, Margene Hackney and Pam Miller. The unearthing of the Mammoth caused mammoth mania at the Westridge School after Mrs. Hackney, a Utah History teacher, lectured about her experience during the dig of the mammoth and showed pictures and slides of the event.

Principal Gary Wilson thought the club would be a wonderful learning experience for the sixth and seventh graders who were interested. The necessary permission was granted from both the Carbon County School District and the Castle Valley Archaeology Society. The Junior Members elected officers and selected their own club logo.

Meetings are usually held every Thursday at 3:15 p.m. and run about an hour to an hour and a half, depending on the activity being done.

The ultimate goal of the club is to learn about our archaeological past and how to protect the rock art and Indian sites from vandals. Most of all, to spread the word that when you take an artifact from a site you are stealing a part of American History.
Changes Made in the Associate Program

This is a very exciting time for the CEU Prehistoric Museum. With the building of our new addition we are and will be making some policy changes. The following is a clarification of our Associate Program with some minor changes. Please read it carefully.

Associate Program Benefits:

1. You must be a member of the Associate Program (any level) in order to receive Al’s Archives, the Museum’s newsletter. Our newsletter contains articles, field trip and lecture schedules, and other information pertaining to the CEU Prehistoric Museum, various outreach programs and topics of similar interests.
2. Members will receive a 10 percent discount in the Museum’s Gift Shop. A membership card must be presented at the time of purchase and excludes sales items.
3. Members will receive special invitations to lectures, new exhibits, and open houses.
4. Members will be given priority spaces on field trips whenever possible. A one month advance registration is required to assure space.
5. Membership (at any level) is a prerequisite for all Museum volunteers.

Membership is from April to March. We realize that this year’s membership drive is late, but please bear with us until we are resettled in our new facilities.

In addition to our new building, we will be expanding displays, creating new displays, and developing a children's room. We are also refurbishing some of our old display cases and hopefully will be able to purchase some new cases for our new museum. Your support is especially needed at this time.
