Nine Mile Canyon Lecture and Field Trip

A BYU Field School Representative will begin the weekend with a lecture on July 14 in Room 7 of Price City Hall at 7 p.m. This lecture is free and open to the public. It will introduce BYU’s research design and goals involved in their study of Nine Mile Canyon. The area being studied is in the lower reaches of the canyon and on private land where public access is limited.

The field trip will be the following day, July 15. Participants will meet at the museum at 8 a.m. and convoy up to the locked gate. It is suggested by BYU that field trip members drive four-wheel drive or high clearance vehicles. The condition of the roads in this area is questionable.

Bring a lunch and good, comfortable walking shoes. There will be some hiking in rough terrain.

BYU is planning several seasons of field work in Nine Mile Canyon. Participants can learn now what BYU plans to research in the canyon and follow their progress on future field trips. More information will be available upon registering with advanced registration for all field trips required.

Registration Form - Nine Mile Canyon Field Trip

I, the undersigned wish to participate with the CEU Prehistoric Museum in the July 15 Auto Field Trip. I understand that the museum cannot be held liable for any loss, accident, or injury that may occur during this trip. I also understand that I will be responsible for my own vehicle and the people riding in it. There is no limit to the number of people I may bring in that vehicle providing it is within the means of the law and is no hazzard to the driver.

CEU's Museum Objective

From the beginning, CEU's Museum has had one aim and one objective: to preserve and display prehistoric artifacts pertaining to the geology and archaeology of Utah—more specifically, those of Eastern Utah—in an effort to add to the educational and cultural values of society. I will support the objectives of the museum and do my part to preserve the past by not collecting artifacts.

Signed
Museum Days - August 7, 1989

Museum Days will begin with children's activities at the museum from 10:00 a.m. to 12 noon. These activities are free to children under the age of 12. Parents may take guided tours of the museum while waiting for their children. Various videos will also be shown and balloons given away free.

"Times of Transition: Pre and Post Fremont" will be the topic of Dr. Joel Janetski's lecture that same evening at 7:00 p.m. in Room 7 of the Price City Hall. Dr. Janetski is a professor at BYU and currently the director of the Salina Canyon Field School. His lecture is free and open to the public.

Please plan on spending August 7 with us at the museum. This will be the last Museum Days in our old building. Come and see us while we are in transition.

This will be the last newsletter mailed out to everyone. In the future it will be mailed only to those who have joined the Museum's Associate Program. For more information call Ileen at 637-5060.
