CEU Museum Is Seeking New Members

It's that time of year when the CEU Prehistoric Museum is looking for people to join the Associate Membership club. In the past, the CEU Museum Association Membership has contributed funds to assist the museum with operations and expansions of display areas.

Now is a great time to join the CEU Museum. The CEU Museum is on the cutting edge of science with the discovery of the Utahraptor and the Huntington Canyon Mammoth and is the only museum in Utah outside of the Wasatch Front to be nationally accredited. The Museum and the Association Membership have undergone some exciting changes. Your donation will go toward funding educational programs, traveling exhibits, and field trips and 10% of your membership fee will be spent on benefits for you. You now get more for your money. There is no better time to join the CEU Museum and become a part of the dynamic museum environment. Send in your check or money order today and start enjoying the benefits of belonging to the CEU Museum.

Benefits of Membership

**Associate (Individual) - $15.00 annually**
- Recognition in Al's Archives
- Reduced fees for educational programs and field trips
- Advance notification and priority registration for field trips and lectures
- Special programs designed for Museum Members and their families

**Contributor - $25.00 annually**
(covers 2 adults and all minor children)
- All Associate benefits plus:
- 10% discount in the Museum Shop

**Donor - $50.00 annually**
- All Associate benefits plus:
- 20% discount in the Museum Shop
- Research privileges in the Museum Research Library during regular business hours

**Patron - $100 annually**
- All Donor benefits plus:
- Certificate of Sponsorship
- Special behind the scenes tour of the Museum Facilities

**Figurine Guild - $500 annually**
- All Patron benefits plus:
- Opportunity to visit a CEU Museum field research facility of your choice
- Personal plaque with space for yearly renewals

**Mammoth Club - $1,000 annually**
- All Figurine Guild benefits plus:
- Two guest passes to the annual DinoFeast
- Recognition on the Mammoth Club permanent plaque in the Museum

**Raptor Circle - $2,000 annually**
- Two guest passes to the annual DinoFeast
- A current publication from the Museum Shop on a museum topic
- Recognition on the Raptor Circle permanent plaque in the Museum

**Corporate League - $3,000 annually**
- 25 Associate Memberships
- Four guest passes to the annual DinoFeast
- Recognition on the Corporate League permanent plaque in the Museum
- Special behind the scenes tour of the museum facility for all employees

1995 Utah Prehistory Week To Be Held May 5-13

The Castle Valley Chapters of the Utah Statewide Archaeology Society (USAS) and the Utah Friends of Paleontology (UFOP) and the CEU Prehistoric Museum are pleased to sponsor activities celebrating 1995 Utah Prehistory Week.

The events get under way on Friday, May 5, 1995 with the 2nd Annual DinoFeast. The Feast begins at 6:30 p.m. in the CEU Ballroom. Main courses include Archaeopteryx Wings, Seedlings of Sequoia, Allosaurus Tenderloin and others. Guest speaker, Dr. Jim Kirkland of Dinamation International will lecture on the new discoveries made by CEU Museum and Dinamation International employees including the Utahraptor. The cost for the dinner and lecture is $12.00 per person. Reservations must be made in advance. Tickets may be purchased at the CEU Museum.

Saturday, May 6, 1995 is Activity Day at the CEU Museum. Many Native American arts and crafts will be on display. Children will enjoy the hands-on activities and everyone will want to see the Native American dancers. A special class on prehistoric pottery techniques will be offered for a small fee. Activities begin at 10:00 a.m. and continue until 5:00 p.m. Admission to the museum and all activities (except the pottery class) is free.

Monday, May 8 is Discovery Night. This month's topic is "Discover Archaeology". Participants will learn how archaeologists excavate a site and how information is gathered using "garnology". Cost for the activity is $5.00 per family for non-museum members and free for CEU Museum members and their families. The activity begins at 7:00 p.m. in the CEU Museum Classroom. Please call for reservations.

Discover The CEU Museum

In an effort to better serve the public and to increase awareness and appreciation of the great diversity of prehistory and history located throughout Eastern Utah and the world; the CEU Prehistoric Museum is proud to announce a new series of educational programs.

These programs, entitled Discover the CEU Prehistoric Museum, combine the learning atmosphere of a classroom with enjoyable hands-on activities and field trips.

Programs are available to meet any interest and age level. They are designed so the entire family can participate together.

An evening class called Discovery Night introduces people to the world of prehistory and history. Parents and children alike will enjoy the light hearted topics and the interesting activities that they can take home with them. Past Discovery Nights have been very successful and fun. Look for upcoming programs featuring geology, archaeology, paleontology and history.

Youth Education Programs are specially designed classes for children from elementary school through high school. These month long classes explore the fields of paleontology, archaeology, geology, local and natural history. Participants will enjoy lectures and demonstrations, do activities and experiments and take field trips. Classes are held once a week. Upon completion of a class, students will receive a certificate naming them as Junior Museum Scientists and they may keep any projects that they complete.

All of the Discover The CEU Museum programs are available to the public at little or no cost. The classes have been prepared to follow the state core curriculum and will supplement classroom material presented by teachers.

Registration for classes is easy. Fill out the form enclosed in this newsletter and return it to the museum. We will send you a reminder before the classes begin.

For the perfect answer to the question, "What is there to do in Price?" register for classes at the CEU Museum! Contact Sue Ann (801) 637-5060 for more information.
DISCOVER THE CEU PREHISTORIC MUSEUM

SPECIAL SUPPLEMENT TO THE SPRING 1995 NEWSLETTER

THE COLLEGE OF EASTERN UTAH PREHISTORIC MUSEUM FROM THE BEGINNING, HAS HAD BUT ONE AIM. ONE OBJECTIVE - TO PRESERVE AND DISPLAY PREHISTORIC ARTIFACTS PERTAINING TO GEOLOGY AND ARCHAEOLOGY OF UTAH, IN AN EFFORT TO ADD TO THE EDUCATIONAL AND CULTURAL VALUES OF OUR STATE AND COMMUNITY.

FOR MORE INFORMATION OR TO REGISTER FOR A CLASS, CONTACT SUE ANN AT THE CEU MUSEUM (801) 637-5060.

A UNIQUE SERIES OF PROGRAMS AND CLASSES DESIGNED TO BETTER UNDERSTAND THE UNIQUE PREHISTORY OF EASTERN UTAH
**DISCOVER THE GROUND AROUND YOU**

Have you ever wondered why the ground is grey? Why aren't dinosaur bones everywhere? The CEU Prehistoric Museum has the answers and we will share them in "Discover The Ground Around You", Monday, April 10, 1995 at 7:00 p.m. in the classroom of the CEU Museum.

Participants will learn how the ground in the Carbon-Emery area was formed, why the dinosaurs died where they lived and how geologists use the ground as an open text book. After the lecture, participants will make their own model of the San Rafael Swell to take home.

For more information or to register for this program, contact Sue Ann at the CEU Museum. Participants are limited to 50 so reserve your space today.

Please reserve no later than Friday, April 7, 1995.

*Discover The Ground Around You* Monday, April 10, 1995 7:00 p.m.

**DISCOVER ARCHAEOLOGY**

Are all archaeologists like Indiana Jones? Not exactly. Do they go around and discover hidden treasures? You bet! Archaeology is more than just digging up artifacts. It is a science field filled with new discoveries and ideas.

In conjunction with Utah Prehistory Week, the CEU Museum presents a special Discovery Night program. "Discover Archaeology", Monday, May 8, 1995 at 7:00 p.m. in the CEU Prehistoric Museum Classroom, will allow the participants to become familiar with the science of archaeology.

Families will "excavate" a site using garbology (the study of garbage) and record their findings. A complete learning experience for all ages.

Registration is limited to 50 people so call early. Please register by April 28 to assure your space.

GEOLGY IN YOUR BACKYARD
A month long program beginning Wednesday, June 7, 1995 and meeting every Wednesday from 3:00 p.m. - 4:00 p.m. through June 28, 1995. Students will learn about the earth around them and how it formed. Topics covered include rocks and minerals, volcanos and earthquakes, and fossils. A special section on the geology of the Carbon-Emery area. Experiments and activities will be performed. A fossil collecting field trip on Saturday, July 1, 1995 is included.

Registration limited to 30 students.
Cost per student:
- Museum Associate: $15.00 for 1st student and $8.00 for each additional student (up to 5)
- Non-members
  - Single student: $22.00
  - Family: $25.00 for 1st student and $10.00 for each additional student (up to 5)

AMAZING ROCK ART
A month long program beginning Wednesday, July 5, 1995 and meeting every Wednesday from 3:00 p.m. - 4:00 p.m. through July 26, 1995. Participants will learn how the ancient artists used materials available to create works of art that have endured for centuries. Hands-on activities include making your own rock art and mineral grinding for paints. A field trip to Nine Mile Canyon on Saturday, July 29, 1995 is included.

Registration limited to 30 students.
Cost per student:
- Museum Associate Members: $15.00 for 1st student and $8.00 for each additional student (up to 5)
- Non-members
  - Single student: $22.00
  - Family: $25.00 for 1st student and $10.00 for each additional student (up to 5)

APPRECIATING THE PLANET WE CALL HOME
A month long program beginning Wednesday, August 2, 1995 and meeting every Wednesday from 3:00 p.m. - 4:00 p.m. through August 23, 1995. Students will learn about protecting sensitive areas, plant and animal habitats, and what animals and plants are threatened and endangered. Activities include taking care of a "wild area" and understanding how all the systems in the Earth work together. Short walking field trips will be included.

Registration limited to 50 students.
Cost per student:
- Museum Associate Members: $10.00 for 1st students and $5.00 for each additional student (up to 5)
- Non-members
  - Single student: $18.00
  - Family: $20.00 for 1st student and $8.00 for each additional student (up to 5)

THE REAL JURASSIC PARKS: WHERE DINOSAURS COME FROM
A month long program beginning Tuesday, June 5, 1995 and meeting every Tuesday from 3:00 p.m. - 4:00 p.m. through June 27, 1995. Students will learn about dinosaur fossilization, locations of quarries and bone preparation. Demonstrations and activities include discovering how a bone is prepared for display and how lab work and notes are completed. A field trip to the Cleveland-Lloyd Dinosaur Quarry on Friday, June 30 is included.

Registration limited to 30 students.
Cost per student:
- Museum Associate Member: $15.00 for 1st student and $8.00 for each additional student (up to 5)
- Non-members
  - Single student: $22.00
  - Family: $25.00 for 1st student and $10.00 for each additional student (up to 5)

WHAT IS AN ARCHAEOLOGIST?
A month long program beginning Wednesday, July 5, 1995 and meeting every Tuesday from 3:00 p.m. - 4:00 p.m. through July 25, 1995. Students will learn about the science of archaeology and how artifacts are located and recorded. Demonstrations and activities include "excavation" of a "site" in the classroom and recording data from archaeological excavations. A field trip to Nine Mile Canyon on Friday, July 28, 1995 is included.

Registration limited to 30 students.
Cost per student:
- Museum Associate Members: $15.00 for 1st student and $8.00 for each additional student (up to 5)
- Non-members
  - Single student: $22.00
  - Family: $25.00 for 1st student and $10.00 for each additional student (up to 5)

HAVING FUN NATURALLY: ENJOYING NATURAL AREAS
A month long program beginning Tuesday, August 1, 1995 and meeting every Tuesday from 3:00 p.m. - 4:00 p.m. through August 22, 1995. Students will learn about protecting sensitive areas, plant and animal habitats, and basic survival skills. Demonstrations and hands-on activities heighten the experience.

Registration limited to 50 students.
Cost per student:
- Museum Associate Members: $10.00 for 1st student and $5.00 for each additional student (up to 5)
- Non-members
  - Single student: $18.00
  - Family: $20.00 for 1st student and $8.00 for each additional student (up to 5)
DISCOVER THE COLLEGE OF EASTERN UTAH PREHISTORIC MUSEUM

WHO CAN PARTICIPATE?

All of these programs are designed with families in mind. Activities are geared toward learning and enjoyment no matter what age the participants may be. There is no limit to who may participate. The CEU Museum encourages entire families to come and join in the fun. It is an opportunity for children of all ages to experience the excitement of prehistory.

WHAT DOES IT COST?

Programs are available to the public at no cost or at low cost. CEU Museum Association members will receive a reduced rate and special priority in reservations. Anyone may sign up for CEU Museum Membership at the time of program registration and receive the membership rate.

HOW DO I REGISTER?

Registration is easy! Just return the form on the next page of this catalog or call the CEU Museum at (801) 637-5060 before the due date and ask for Sue Ann. For Discovery Night programs, you can pay your registration fee at the door, for Youth Education programs and field trips, you will need to pay in advance. Reminders will be sent to you two weeks in advance of the program.

For more information you can contact the CEU Museum (801) 637-5060 or you can pick up an extra brochure in the museum lobby. Watch for new classes and activities available in the Fall!

DISCOVER FABULOUS FOSSILS

The world of fossils is fascinating and unique. How does a living thing turn into the rocks that we study millions of years after it’s death? Will some humans eventually become fossils? These are questions that will be answered during this evening of sometimes messy fun! "Discover Fabulous Fossils", Monday June 5, 1995 at 7:00 p.m. in the CEU Museum Classroom will give some hands-on experience with fossils. Participants will discover exactly what a fossil is and how it formed. They will then have the opportunity to make a cast of a fossil to take home. This activity is geared to all age groups and the entire family is invited to attend. Registration is limited to 50 participants so call in your reservation early. Please call in no later than Thursday, June 1, 1995.

Discover Fabulous Fossils    Monday, June 5, 1995    7:00 p.m.

Cost

CEU Museum Members    $5.00*
Non-members    $10.00

*you may sign up to be a museum member at the time of registration and receive the membership rate

DISCOVER PALEOINDIAN LIFE

What if you lived back in time, back when hunting mammoths was the only way you could survive? What kinds of things would you think were important? Plan to attend "Discover Paleoindian Life", Monday, July 10, 1995 at 7:00 p.m. in the classroom of the CEU Museum and find out.

Participants will learn what kinds of animals lived in this area when glaciers were common. They will take part in a role playing game that puts them in the middle of a struggle for survival against a mammoth and against starvation.

For more information or to register for this program, contact Sue Ann at the CEU Museum. Participants are limited to 50 so reserve your space today! Please reserve no later than Friday, July 7, 1995.

Volunteer Corner

On February 4, 1995, the CEU Museum lost a beautiful volunteer. Lena M. Gilbert passed away at her son's home in Idaho Falls.

Lena did not work as a volunteer very long but the time that she was here was wonderful. Lena worked in the gift shop during lunch times which often proved to be the busiest. "She never sat down the whole time she worked, she was always running around helping someone", said Fleen Gibbons, Museum Office Manager.

Lena began working at the museum in the summer of 1994. She was looking for something to do that would keep her busy after her retirement from the medical field. Penny's where she worked for 32 years.

"We are going to miss her around here", said Pearl Oliver, Gift Shop Clerk.

Lecture Series

The University of Utah College of Mines and Earth Sciences with the cooperation of the CEU Museum announces the Community Outreach Lecture Series. This series of lectures is presented by professors at the University of Utah and focuses on geologic topics of interest to Utahns.

Wednesday, April 22, Dr. Steve Krueger will speak on "Microbursts, Mackeral Skies and Volcanic Twilights". Dr. Krueger will talk about atmospheric phenomena that are easily observed in Utah such as lightning, thunderstorms and cloud formations. Dr. Krueger is an Assistant Professor of Meteorology at the University of Utah.

Friday, May 12, Dr. Walter Arbasz will present "Underground Mining and Seismic Energy Release in East-Central Utah". Dr. Arbasz will focus on the significant amount of seismic activity in the Book Cliffs area of Eastern Utah and its human connection. Arbasz is Research Professor of Geology and Geophysics at the University of Utah.

Wednesday, May 24, Dr. William Nash will speak on "Volcanism and Global Change". Dr. Nash will look at historic volcanic eruptions and how they disrupted the delicate balance of the earth's climate, sometimes with cataclysmic results. Dr. Nash is currently a professor in the Department of Geology and Geophysics.

All lectures in this series are free and open to the public. They are co-sponsored by the Castle Valley Chapters of Utah Friends Of Paleontology and Utah Statewide Archaeological Society. For more information, contact the CEU Museum.

Gallery Exhibit

The CEU Prehistoric Museum and the Carbon County Council for Arts and Humanities is proud to present the 1st Annual Young Artists Competition. On display in the Museum through April 28, 1995. This contest was open to artists in Carbon County from the middle school through the high school.

An opening reception will be held at the Museum on April 7, 1995 at 7:00 p.m. Winners of the Carbon County writing competition will read their works and a string quartet will play.

The CEU Museum will display a People's Choice box where visitors may vote for their favorite artwork. The winner will be announced at the opening reception on April 7. The exhibit and reception are free and open to the public.

Emery County is also hosting a Young Artists Competition on display at the Museum of the San Rafael.

Shop Talk

New in the CEU Museum Shop is a wonderful collection of traditional Navajo pottery. This unique pottery is hand thrown and coated with pine pitch. These beautiful pieces begin at $10.99. Also of interest are the Native American and dinosaur designs of the Alchemist earrings. Made of combinations of nickel, copper and brass, they are available in both pierced and clip on styles and are hypoallergenic.

If dinosaurs are your fancy, the Museum Shop has charming dinosaur babies new hatched! Artist John Fishner has recreated the tiny details of dinosaurs like the long necked Brontosaurus and the fearsome and toothy Tyrannosaurus in colorful figurines.

New this spring is a unique T-Shirt design featuring a panel from Nine Mile Canyon. Eriel Primevel Productions brings you these shirts in sizes M-XXL. Look for new kids shirts too in sizes from 2-16! Remember the Museum Shop for unique and educational gifts to please everyone.

Ask the Experts

Q: What prehistoric cultures called Eastern Utah home?

A: Utah's prehistoric past is filled with cultures! The Puebloans came first, they were the ones who hunted the mammoths and other Ice Age mammals. This culture occupied Utah from approximately 13,000 years before present (b.p.) to about 8,000 b.p. The Archaic Culture came next. The Archaic Culture is responsible for the beautiful rock art images of Barrier or Horseshoe Canyon near Green River. The Archaic people were hunters and gatherers that lived here until about 500 A.D. Eastern Utah is most familiar with the Fremont Culture. This group of people populated areas of the San Rafael Swell and Nine Mile Canyon from approximately 500 A.D. - 1300 A.D. The Fremonts' way of life was similar to that of the Ancestral Puebloans. The Ute Culture ultimately gave Utah its name.

If you have a question that you would like answered, send it to CEU Prehistoric Museum ATTN: Newsletter, 451 E. 400 N. Price, Utah 84501 or call (801) 637-7506 or FAX (801) 637-2514. If we use your question in the CEU Museum Newsletter, you will receive a year long Associate Membership FREE!
